Consequently, the hearing of the matter was adjourned and the same was directed to be taken up today at 4:00 PM and the respondent no.6 was directed to submit the medical report alongwith Form-D of the Rules 2003 through fax or through email or WhatsApp for further hearing today at 4.00 PM.

Termination of pregnancy has its own risks like operative interference (hysterotomy), bleeding, sepsis, post-traumatic stress disorder etc.

7. Physical fitness of the woman for the termination of pregnancy:

3. No.”

3. A copy of the said report is also handed over to learned counsel

for the petitioner to get permission from the mother of the petitioner and he makes a statement at the bar that the mother of the petitioner gives consent for termination of pregnancy of the petitioner.

4. We have occasion to peruse the report of the Medical Board of the Medical College along with opinion of a panel of seven doctors and find that the panel of seven doctors have opined that continuation of pregnancy poses a greater risk to her physical and mental health due to her tender age of 12 years. The termination of pregnancy has its own risk like operative interference (hystrotomy), bleeding, sepsis, post traumatic stress disorder etc. and hence, it is feasible to abort the foetus.

5. Considering the facts and circumstances and the medical report, it would be "just, legal and appropriate" to order termination of pregnancy of the petitioner after considering the medical evidence on record.

6. Accordingly, we allow the victim to undergo medical termination of her 25 weeks pregnancy at the earliest with due care and precautions. The District Magistrate, Bulandshahar is directed to ensure that the petitioner alongwith her mother may report to Jawahar Lal Medical College, Aligarh tomorrow i.e. **13.07.2023 at 10 AM**. We also direct the Principal of the Medical College to ensure the termination of pregnancy of the petitioner and the said exercise is to be carried out in presence of Head of Department of Obs & Gynae of the Medical College.
